JOB AID: CHANGE PREMIUM ASSISTANCE AMOUNT

February 20, 2015

In the past, Consumers could not change the amount of Advanced Premium Tax Credit (APTC) they receive unless there was a reported change in income or life circumstances. Consumers can now change the amount of APTC they receive at any time. This Job Aid illustrates the steps a Consumer follows to change the amount of their APTC and is written for Administrative users (Admins).

Change Premium Assistance Amount Link

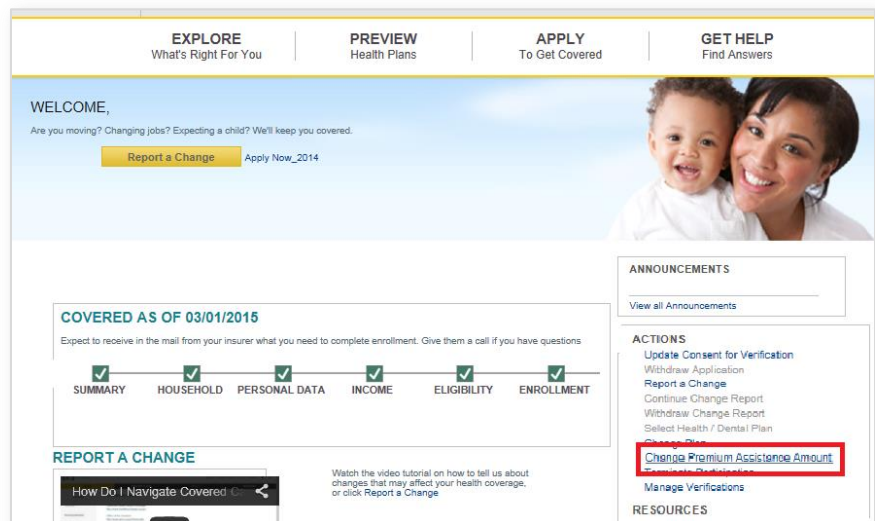

When they first enroll in a plan, eligible Consumers can choose to have all or part of their premium assistance sent directly to the insurance company and applied to their monthly premium or to wait to receive the premium assistance as a tax credit. Consumers wanting to change their selection of how they receive their premium assistance or how much premium assistance is applied to their monthly premium can now do so independently during the enrollment year.

The **Change Premium Assistance Amount** link displays in the **Actions** column on the *Individual* home page for Consumers when:

- The health plan is in an Enrollment Status of Pending or Enrolled,
- The household is eligible or conditionally eligible for APTC, and,
- The maximum amount of APTC the household is eligible for is greater than 0 (zero).

The link does not display when:

- Report a Change is in progress
- The **Continue Health Plan Update** button is displaying on the *Plan Enrollment Summary* page
- It is after November 15 and enrollment information for the current benefit year is displaying on the *Plan Enrollment Summary* page

To change the premium assistance amount, click the **Change Premium Assistance Amount** link in the **Actions** column on the *Individual* home page.

Right now, you pay \$648.64 each month for your insurance coverage. You qualify for up to \$577.00 in premium assistance to help lower the amount you pay each month. You have decided to have \$50.44 in premium assistance paid directly to your insurance company each month. Monthly Premium changes made by the 15th of the month will be effective the first day of the next month. Monthly Premium changes made after the 15th of the month will be effective the first day of the second following month.

There are two ways to use your premium assistance	
Option 1: Choose Monthly Premium Assistance	Option 2: Choose Annual Premium Assistance
You can have some or all of your premium assistance paid directly to your insurance company each month. This will cover part of your premium cost each month.	You can wait until the end of the year to get premium assistance when you file your federal tax return next year. This may reduce the amount of tax that you owe or increase your tax refund.
Pro: You'll pay a lower premium each month.	Pro: You won't run the risk of owing money at tax time if your income increases.
Con: If your income increases during the year, you may qualify for less premium assistance than you're receiving. As a result, you may have to pay some back at tax time.	Con: You'll pay a higher premium each month.

You will see the changes in your premium on future invoices from your insurance company.

Premium Assistance

Your household qualifies for premium assistance of \$ 577.00 that can be applied to reduce your monthly health insurance costs (for a total of 5,770.00 for the year).

The premium assistance you qualify for is a tax credit from the federal government that is applied to help you purchase health insurance. This assistance reduces the cost of your insurance. You have a choice of how you want to receive your credit:

- Have your premium assistance sent to the health plan you choose every month throughout the year to help pay your insurance premiums.
- Receive your entire premium assistance all at once after you file your 2015 tax return next April, which means that you would be paying the entire monthly premium throughout the year.

Here's more information about your premium assistance.

The amount shown here is an estimate based on the estimate of your 2015 income you made when you began the enrollment process. The actual premium assistance amount depends on the income you declare in your 2015 tax return. If your actual income on your tax return is higher than your estimate here, you could have to return some or all of the amount you received if you took a portion of the premium assistance each month throughout the year. You are required to file a federal tax return for 2015, and that will be the basis of determining whether you receive an annual premium assistance payment.
